

Bulk Liquid Storage 2017 taking place on 25th & 26th October in Dubrovnik, Croatia will bring together senior representatives from the bulk liquid storage industry to discuss all the latest market updates, developments & business opportunities.

The interactive two day event will cover current key challenges and issues faced by the industry and provide in depth discussions and analysis of today's European & global policies and regulations, followed by recent market dynamics changes impacting on supply & demand trends. The event will also provide a strategic & logistic overview of port infrastructures, on site operations & safety measures and will provide an informative & balanced discussion for participants from across the entire supply chain.
