

Our Business

px group is a fully integrated infrastructure solutions business, with over 25 years of experience. We provide innovative operations management, engineering services and energy management solutions to partners in high hazard, highly regulated industries. Our focus is improving operating performance of commercial and industrial facilities, with zero harm to people, environment asset and reputation.

We do this by focusing on three key delivery areas: Operations & Maintenance, Engineering Services and Energy Trading.

The Opportunity

We are now recruiting for a Senior Technical Safety Engineer to provide technical/engineering advice and support to activities on px operated assets and projects, this role will be based in the Balmoral Office and is full time.

Minimum Requirements:

- A process engineering, chemical engineering or other relevant STEM degree (BEng minimum or equivalent)
- Experience of working in a similar role.
- Knowledge, understanding and application of relevant technical safety legislation, standards, & good practice.
- Experience of full project life cycle from concept to operation.
- Data interpretation & analysis, analysing problems & developing solutions.
- Flexible attitude to role & duties, working in both an office environment and from home, on operational assets at different px sites. Places high emphasis on safety and standards.
- Organise own workload to meet targets & makes appropriate decisions without management consultation.
- Willing to learn new technical & non-technical skills.
- Able to quickly get up to speed, critically analyse & review policies, reports, operational, engineering and commercial data, involving multiple factors, priorities & trends, balancing safety & commercial pressures & make realistic suggestions & decisions.
- Prepares & present info accurately, clearly & effectively, facilitating decision-making & issues management.
- Confident communicator orally & in writing, with all personnel. Demonstrates active listening & questioning skills. Makes positive contributions in discussions.
- Prepares and checks presenting business documents, reports, studies & presentations. Methodical & logical approach.
- Calm, composed & objective in challenging and fast moving situations. Successfully adapts to changing work demands & conditions.
- Excellent problem solving skills.

In order for your application to be progressed, all candidates must meet the minimum requirements of the job role person specification.
